- Low Significance;
- Moderate Significance;
- Medium-high Significance;
- High Significance;
- Exceptional Significance

Reviewer A: 5/5 Reviewer B: 5/5

Average: 5/5

*Evidence B:*NA

2. Is the area important for climate mitigation?

Scoring:

- >50 t/ha - Low;

*Evidence B:*NA

B) Geographical focus in an area under IPLC governance.

3. Is the area held and managed by IPLC under community-based governance systems?

Scoring:

- IPLC governance (rights and institutions) not evident;

- Project areas are held and managed under strong and active IPLC governance systems

Reviewer A: 4/5 Reviewer B: 4/5

Average: 4/5

Evidence A: Most of the areas are under indigenous management. There are other areas that are under the supervision of government agencies.

Evidence B: The project proposed 4 blocks (plus 2 other for exchanges). And the delimitation is not so clear. Apparently, most of the more fine focused areas (within the 4 larger blocks) are under IP management, but not all are officially recognised.

- Unique significance of project site(s) clearly explained

Reviewer A: 1/2 Reviewer B: 2/2

Average: 1.5/2

Evidence A: The cultural significance is implied as the project includes several indigenous peoples in 5 countries.

Evidence B: The text does not. But we know they are.

C) Vulnerability of the proposed IPLCs as well as their lands/waters/natural resources to threats.

5. Is the area vulnerable to threats/current risk of negative impacts to IPLC and biodiversity without action?

Evidence A: The threats listed include: illegal mining, construction of roads, oil and gas exploration, and deforestation for agribusiness.

Evidence B: Not homogenous (obviously).

D) Opportunities for ICI results - including enabling policy conditions, positive government support and presence of successful IPLC-led conservation initiatives that could be scaled up.

6. Are enabling policy conditions in place for IPLC-led conservation in the proposed area?

Scoring:

- Legal and policy frameworks in project areas undermine IPLC governance (either actively or through absence);
- Legal and policy frameworks recognize limited rights for IPLCs over their lands and/or resources;

Evidence B: In some cases more than others.

E) Synergies with existing investments.

9. Are there other initiatives (relevant projects) that provide complementary support for IPLC-led conservation in the geography?

Scoring:

- Few to no complementary projects/investment;
- Complementary projects/investments are small, or are tangentially related to project goals;
- Complementary Projects/investments align strongly with project goals and investments are substantial

Reviewer A: 1/2 Reviewer B: 1/3

Average: 1/2

Reviewer A: 2/5 Reviewer B: 5/5

Average: 3.5/5

Evidence A: There are some projects that COICA has carried out in the past that could be the basis for specific targeted activities that can help the work to scale up.

Evidence B: As the proposal addresses areas of multiple countries (each of the 4 main blocks are multicountries) is very interesting. Also, some challenges and some threats are approached in a very interesting way (as if it was possible to have a general IP approach in the Amazon to face gold mining or to self-define areas or to define zones in their territories etc.)
