

Eol Reviews by TRC

Assessment of Eol: 386

Organization: Reserva de Biosfera del Manu

Eol Metadata

name	Eol	Geography	state	Section 1	Section 2	Section 3	Total
ARACELY PAZMINO	386	Andes/Amazon	Peru	18	12	11	41
Filiberto Penados	386	Andes/Amazon	Peru	25	39	28	92

Performance of Eol 386 in Andes/Amazon - Percentile by Average Score

Section 1 - Experience & strengths relevant to the proposed Indigenous territory, landscape/seascape (Total Points: 30)

A) Importance of the landscape/seascape/indigenous territory for biodiversity, with additional consideration to climate benefits.

1. Is the proposed territory/landscape/seascape a globally important area for biodiversity?

Scoring:

- Not significant;
- Low Significance;
- Moderate Significance;
- Medium-high Significance;
- High Significance;
- Exceptional Significance

Reviewer A: 3/5 Reviewer B: 5/5

Average: 4/5

Evidence A: It is important to the region because it is the entrance to the Amazon and this is an area of high importance for biodiversity of the planet.

Evidence B: biosphere of recognized importance by UNESCO; part of hot spot and key biodiversity area; high biodiversity; high cultural diversity

2. Is the area important for climate mitigation?

Scoring:

- >50 t/ha - Low;
- 50 - 100 t/ha - Moderate;
- >100 t/ha - High

Reviewer A: 1/2 Reviewer B: 2/2

Average: 1.5/2

Evidence A: Information according to irrecoverable Carbon Map

Evidence B: Intact forest area

B) Geographical focus in an area under IPLC governance.

3. Is the area held and managed by IPLC under community-based governance systems?

Scoring:

- IPLC governance (rights and institutions) not evident;
- Project areas are marginally under IPLC governance (spatially or politically);
- Project areas are partially under IPLC systems of governance (spatially or politically);
- Project areas are largely under IPLC governance, but IPLC rights and/or institutions face significant constraints;
- Project areas are held and managed under IPLC governance systems, with some limitations;
- Project areas are held and managed under strong and active IPLC governance systems

Reviewer A: 2/5 Reviewer B: 4/5

Average: 3/5

Evidence A: Information according to Presence of formally Recognized IPLC lands and the information provided in the EoI 386. It refers to the participation of native communities and rural communities across © s of the Committee © of coordination of RBM and its committee © s district.

Evidence B: Indigenous communities seem to have a governance system through which they govern their commons and are also part of larger governance systems

4. Does the proposal explain the unique cultural significance of the area to IPLCs?

Scoring:

- No explanation given of unique significance to IPLCs;
- Significance of site(s) vaguely described;
- Unique significance of project site(s) clearly explained

Reviewer A: 1/2 Reviewer B: 2/2

Average: 1.5/2

Evidence A: It makes an interesting explanation but falters on details to say who are clearly explained. Especially these details are not evident in the design or proposal.

Evidence B: explains the reality and role of Comunidades Campesinas, Nativas and un-contacted communities

C) Vulnerability of the proposed IPLCs as well as their lands/waters/natural resources to threats.

5. Is the area vulnerable to threats/current risk of negative impacts to IPLC and biodiversity without action?

Scoring:

- No evident threats;
- Low threats;
- Moderate threats;
- Medium-high threats;
- High threats;
- Requires urgent action

Reviewer A: 4/5 Reviewer B: 3/5

Average: 3.5/5

Evidence A: The reserve is in an area where it is particularly important threats arising from its location and has all the Amazonian: Effects Climático change, forest fires (DC and antrópicas causes change of use of the soil), on exploitation resource (wood from the forest amazónico), current situation by COVID. There is no mention in any case, aspects related to mining industry and illegal activities are extremely important in that area. All these threats have potential impact for peoples in isolation and initial contact.

Evidence B: Main challenge seems to come from deforestation, forest fires and extraction all pushed by economic and development pressures... this will only increase without action

D) Opportunities for ICI results - including enabling policy conditions, positive government support and presence of successful IPLC-led conservation initiatives that could be scaled up.

6. Are enabling policy conditions in place for IPLC-led conservation in the proposed area?

Scoring:

- Legal and policy frameworks in project areas undermine IPLC governance (either actively or through absence);
- Legal and policy frameworks recognize limited rights for IPLCs over their lands and/or resources;
- Legal and policy frameworks recognize rights over lands and resources but with constraints (e.g., lack implementing regulations);
- Legal and policy frameworks actively promote the recognition of IPLC governance

Reviewer A: 2/3 Reviewer B: 3/3

Average: 2.5/3

Evidence A: There is justification but have limitations for execution. Threat conditions are not controllable in many cases by the lack of ability of states to safeguarding existing threats.

Evidence B: Peru is signatory to important conventions such as CBD and ILO 169 and seems to have programs that are congruent with the goals of these.

7. Is there active government support for IPLC-led conservation in the proposed country/area?

Scoring:

- National or sub-national governments are actively opposed to IPLC-led conservation;
- National or sub-national governments have recognized the importance of IPLC-led conservation;
- National or sub-national governments have implemented some support for IPLC-led conservation;
- National or sub-national governments are actively engaged in the promotion of IPLC rights and IPLC-led conservation

Reviewer A: 2/3 Reviewer B: 2/3

Average: 2/3

Evidence A: The EoI mentions support for SERNANP The implementation of this proposal. It is not clear what the EoI mentioned in this regard.

Evidence B: Estrategia Regional de Cambio Climático del Gobierno Regional del Cusco (GOREC) and programs of Ministerio de Economía y Finanzas – MEF seem to be supportive

8. Are there successful IPLC-led conservation initiatives in the proposed area that provide a foundation for scaling up?

Scoring:

- No IPLC-led conservation initiatives have been implemented;
- Few IPLC-led conservation projects have been implemented in pilot stages only;
- Some IPLC-led conservation projects have been implemented beyond pilot stages;
- Relevant IPLC-led conservation projects have been well established for many years

Reviewer A: 2/3 Reviewer B: 2/3

Average: 2/3

Evidence A: They are reported several interesting experiences that can be linked or articulated as Matsigenka House, sub-brand of productive agroforestry projects, in addition to activities resulting from initiatives tree debris by the Rio Manu.

Evidence B: Casa Matsigenka that addresses tourism, salvaging of trees program; sustainable agriculture programs seem to have been successful and the organization seems to have a longstanding presence

E) Synergies with existing investments.

9. Are there other initiatives (relevant projects) that provide complementary support for IPLC-led conservation in the geography?

Scoring:

- Few to no complementary projects/investment;
- Complementary projects/investments are small, or are tangentially related to project goals;
- Complementary Projects/investments align strongly with project goals and investments are substantial

Reviewer A: 1/2 Reviewer B: 2/3

Average: 1.5/2

Evidence A: There are initiatives mentioned and are interesting and can be aligned with the objectives of the project (but it is not clear objective in general) but additionally the issue of co-financing is unclear.

Evidence B: Several projects are listed and the MEF financing initiatives seem very relevant

Section 1:

Reviewer A Total Score: 18/30

Reviewer B Total Score: 25/30

Average Total Score: 21.5/30

Performance of Eol 386 in Andes/Amazon - Percentile by Average Score (Section 1)

Section 2 - Quality and ability of the proposed approach and interventions to achieve transformational impact that generate the global environmental benefits (Total Points: 40)

A) Quality of proposed approach and ability to support traditional structures, knowledge and community practices in the delivery of global environmental benefits.

1. Is the proposed approach well aligned with the overall objective of the ICI to: Enhance Indigenous Peoples' and Local Communities' (IPLCs) efforts to steward land, waters and natural resources to deliver global environmental benefits?

Scoring:

- Weakly aligned;
- Partially aligned;
- Well aligned;
- Exceptionally well aligned

Reviewer A: 1/3 Reviewer B: 3/3

Average: 2/3

Evidence A: It is mentioned in the design ± or more aspects but are not adequately explicit in the design ± or project. There are sections of the design ± or can be learned and improved to narrow its scope as the goal of educaciÃ³n intercultural and sustainable development.

Evidence B: it proposes to strengthen governance capacity; build the knowledge base and education capacity; strengthen the economy addressing generational and gender inclusion

2. Does the EoI present a clear and convincing set of activities and results?

Scoring:

- The objectives and approach for this project lack clarity and cohesion, and/or do not appear to be realistic for the context;
- Activities & results defined but logic (Theory of Change) is incomplete;
- Activities and results are well-defined and cohesive but some aspects require clarification;
- The project has clear objectives and a cohesive approach with relevant activities for the context and timeline

Reviewer A: 0/6 Reviewer B: 6/6

Average: 3/6

Evidence A: The justification of the proposal has some interesting arguments. However, the design ± or (general and specific) objectives are very general and forth several elements that disperse the attention of what is to be achieved. They're almost all results made without an approach to bring change to the end of the concatenated project activities. The first objective is wrong in its description and developed several activities They're written as targets. Generally it has very interesting aspects about but you lack focus (very broad), clearly the design ± o, and not understood as consecusiÃ³n of activities lead to make a change to the end of the project. The articulation between objectives could be improved significantly. Overuse of the appearance of gÃ©neros equal detracts from their inclusion and how is alcanzarÃ³n is unknown.

Evidence B: it proposes to strengthen governance capacity; build the knowledge base and education capacity; strengthen the economy addressing generational and gender inclusion. These seem to come together well.

3. Will the project (objectives and activities) contribute to overcoming identified threats and putting in place necessary enabling opportunities for IPLC-led conservation?

Scoring:

- Objectives and activities do not clearly address identified threats and opportunities;
- Contributions to addressing the threats and opportunities are low;
- Contributions to addressing threats and enabling conditions are slightly over-ambitious;
- The impact on threats and enabling conditions can be realistically accomplished and are sufficiently ambitious for the projects' context

Reviewer A: 0/3 Reviewer B: 3/3

Average: 1.5/3

Evidence A: I think that identifying potential threats and actions are well suited ± but in the design or objectives and activities the relationship is lost between this project and how to achieve and create change to address threats. It can be improved for greater range and determining opportunities for Conservation of IPLC-led Initiatives.

Evidence B: The objectives and activities seem to be well thought and realistic.

4. Are the activities achievable within a \$500,000 to \$2,000,000 USD budget range in a period of 5 years of project execution?

Scoring:

- Activities/results not aligned with Eol range of investment;
- Activities/results Partially aligned with Eol range of investment ;
- Activities/results Well aligned with Eol range of investment ;
- Activities/results Exceptionally well aligned with Eol range of investment

Reviewer A: 0/3 Reviewer B: 3/3

Average: 1.5/3

Evidence A: difficult to answer

Evidence B: NA

5. Does the Eol include significant and concrete sources of co-financing?

Scoring:

- None;
- Small;
- Moderate;

- Significant

Reviewer A: 1/3 Reviewer B: 3/3

Average: 2/3

Evidence A: projects- potential initiatives of the State that may be linked but it is unclear are mentioned how you can get these activities as co-financing.

Evidence B: 8 projects are listed and the potential funding from MEF seems very relevant.

B) Potential of the proposed activities to achieve IPLC-led transformational impact that generate global environmental benefits.

6. Are the estimated Global Environmental Benefits (GEF core indicators) substantial and realistic?

Scoring:

- Not provided;
- Very Low (below 10,000 Ha);
- Moderate (between 100,000 - 500,000 Ha);
- High (between 500,000 - 1,000,000 Ha);
- Very high above 1,000,000 Ha

Reviewer A: 3/5 Reviewer B: 5/5

Average: 4/5

Evidence A: They are provided but I fail to see how these figures can be achieved through the design ± o. But they mentioned indicators. If improving the design ± or possibly the scope of such indicators would understand better.

Evidence B: NA

7. Are the additional cultural and livelihoods results contributing to project objectives?

Scoring:

- No provided cultural or livelihood indicators for the project;
- Indicators proposed but are not clearly aligned with project goals;
- Indicators proposed and are moderately aligned with project goals;
- Additional cultural and/or livelihood indicators clearly derive from project goals

Reviewer A: 2/3 Reviewer B: 3/3

Average: 2.5/3

Evidence A: The proposed additional indicators are clear and have a focus of ICI.

Evidence B: These seem to have been well thought and elaborated on

8. Does the EoI provide a clear and robust vision for long-term sustainability?

Scoring:

- Vision for long-term sustainability not provided;
- This project does not seem to have a clear long-term impact;
- This project will create medium-term benefits for biodiversity and IPLC governance, which future funding will hopefully build upon;
- This project will ensure long-term benefits to biodiversity and IPLC systems of governance

Reviewer A: 1/3 Reviewer B: 3/3

Average: 2/3

Evidence A: several interesting initiatives aspects are mentioned, but I fail to see in the design ± or to pose a robust and long-term vision.

Evidence B: Seems to be well aligned with national and regional strategies and programs; has a number of allies such as PNUD, FZS, ACCA, SDZG-P, CREES and the communities have a long established history of organization

C) IPLC-led conservation that advances national and global environmental priorities.

9. Does the EoI build on and contribute to national priorities as defined in NBSAPs and/or NDCs?

Scoring:

- Contributions not provided;
- The project is weakly related to either national priorities;
- The project appears to be tangentially related to national priorities;
- The proposal reflects an understanding of the national policy priorities and clearly positions the project in relation to those priorities

Reviewer A: 2/3 Reviewer B: 3/3

Average: 2.5/3

Evidence A: They are described properly and potentially.

Evidence B: seems to be well articulated with national plans

D) Demonstrated gender mainstreaming in all activities.

10. Does the EoI provide a clear and robust approach to gender mainstreaming?

Scoring:

- Gender mainstreaming approach is absent;
- Gender mainstreaming approach is weak;
- Gender mainstreaming approach is moderately thought through (if there are a few activities as 'add ons');

- Significant and well-thought through approach to gender mainstreaming

Reviewer A: 1/3 Reviewer B: 3/3

Average: 2/3

Evidence A: elements used in the design ± or the issue of inclusion of the approach but does not understand how it would reach. It is justified in the development of the EoI but fails to see how it thought tÃ© technically. A design ± or without concrete proposals and many statements on the subject.

Evidence B: A number of internal and external actions are listed.

E) Innovation and potential to scale up.

11. Do the proposed activities and results demonstrate innovation and potential for transformative results at scale?

Scoring:

- None demonstrated;
- Low demonstrated potential;
- Moderate demonstrated potential;
- Medium-high demonstrated potential;
- High demonstrated potential;
- Exceptional demonstrated potential

Reviewer A: 1/5 Reviewer B: 4/5

Average: 2.5/5

Evidence A: There are interesting or innovative activities within the design ± or, as is the use of marks. In the design ± or in general there are interesting activities but I think as a whole does not see the results aticulaciÃ³n to achieve change and transformation. It may be reformulated to narrow the proposal, clarify and focus on a particular change to the end of the process.

Evidence B: The proposed project seems to be consistent with indigenous vision of economy and land stewardship integration. The elements of the project seem to be coherent with this and it could generate lessons for other regions.

Section 2:

Reviewer A Total Score: 12/40

Reviewer B Total Score: 39/40

Average Total Score: 25.5/40

Performance of Eol 386 in Andes/Amazon - Percentile by Average Score (Section 2)

Section 3 - Qualifications and experience of the Organization (Total Points: 30)

A) Indigenous Peoples or Local Community organization legally recognized under national laws.

1. Is the EoI led by an IPLC organization?

Scoring:

- IPLC appear to be beneficiaries only;
- Combination/partnership of IPLC organizations and NGOs, and plans to build IPLC capacity over the project term are clear;
- IPLC-led approach, NGOs in more limited, defined roles (such as fiduciary);
- Fully IPLC composed and led approach

Reviewer A: 2/6 Reviewer B: 4/6

Average: 3/6

Evidence A: It is not clear to me who introduced the proposal. According to what I gather is that representatives of the Committee © of coordination of RBM and its committee © s district, where I understand that there are representatives of peasant and native communities (PICL recognized by UNESCO). It is understood that an alliance of the MBR with the Company ZoolÃ³gica of Frankfurt.

Evidence B: The organization identifies as an IPCL and the project includes several other indigenous organizations that operate on the ground.

B) Demonstrated on the ground leadership related to Indigenous Peoples and/or Local Community Conservation.

2. Does the lead proponent demonstrate on-ground leadership relevant to the proposed work?

Scoring:

- None demonstrated;
- Limited demonstration of relevant on-ground leadership;
- Demonstrated on-ground leadership relevant to the proposed work;
- Exceptional and long-standing on-ground leadership relevant to the proposed work

Reviewer A: 4/6 Reviewer B: 6/6

Average: 5/6

Evidence A: The committee © of coordination integrates RBM and its committee © s district. It speaks of specific experience in the field.

Evidence B: Organization has 43 years of experience and has a number of projects that bring together on the ground organizations

C) Proven relevant experience in working with IPLC networks, alliances and organizations/ strength of partnerships on the ground.

3. Does EoI demonstrate that the lead proponent has strong partnerships, particularly with other IPLC organizations, to carry out the work?

Scoring:

- No partners defined;
- No IPLC partners identified;
- IPLC organizations are listed as implementing partners but without clear scope (roles in project design or governance);
- IPLC organizations are listed as implementing partners with clear roles (in project design or governance);
- Strong IPLC partnerships that play a central role in design, governance, and implementation of the project;
- Strong IPLC partnerships have a central role in design, governance and implementation of the project and linkages with national or regional IPO networks

Reviewer A: 2/5 Reviewer B: 5/5

Average: 3.5/5

Evidence A: It is not clear to me

Evidence B: Organization has 43 years of experience and has a number of projects that bring together on the ground organizations

D) Technical expertise and capacity to address environmental problems, root causes and barriers.

4. Does EoI demonstrate technical capacity of lead proponent and partners to deliver the proposed results?

Scoring:

- No skills demonstrated;
- The skills and experiences outlined have little or no relation to the project activities;
- There is some lack of clarity or some gaps in the capacities necessary to implement the project;
- The activities clearly show how they plan to fill capacity gaps over the course of the project;
- They seem to have adequate skills and capacity for the project but do not have experience with GEF projects;
- The lead organization and project partners clearly communicate that they have all the skills and experience necessary to implement the project activities. Also, have past experience with GEF funded projects.

Reviewer A: 2/5 Reviewer B: 5/5

Average: 3.5/5

Evidence A: 0

Evidence B: Has done so for 43 years.

E) Project Management capacity.

5. Does the EoI demonstrate project & financial management capacity needed for scale of proposed effort?

Scoring:

- Very limited (no criteria met);
- Some capacity but would require support (1/3 criteria);
- Moderate capacity (2/3 criteria met);
- Very strong (all criteria met) with demonstrated past performance

Reviewer A: 0/6 Reviewer B: 6/6

Average: 3/6

Evidence A: It mentioned that currently do not have authorization for immediate receipt of funds. I understand that would be the Frankfurt Zoological Society who recibirÃan funds and they Provision must have an analysis capabilities for delivering funds.

*Evidence B:*Has managed large projects in the past

6. Does lead organization have experience with safeguards and other standards required by GEF?

Scoring:

- Answered no;
- Answered yes but with weak or lacking explanation to the extent;
- Answered yes with clear explanation of the extent

Reviewer A: 1/2 Reviewer B: 2/2

Average: 1.5/2

Evidence A: There is a direct experience of the organization.

*Evidence B:*Indicated yes and gave explanation

Section 3:

Reviewer A Total Score: 11/30

Reviewer B Total Score: 28/30

Average Total Score: 19.5/30

Performance of Eol 386 in Andes/Amazon - Percentile by Average Score (Section 3)
